

## Low Pressure Screw Pump NI-LPSP3

The screw pump possesses a pressure range of vacuum (-0.7 bar) to Pressure (+3 Bar) uses air as the media, and can adjust the pressure easily.

The Pump is used for calibrating magnehelic gauges, pressure transducers, precision pressure gauges along with standard or master indicators.

### Technical Specification

Media: Air

Generated Pressure Range:

-0.7 Bar vacuum to (3 bar) positive pressure
